

I am writing to urge to you to stop phone companies from imposing misleading charges on my monthly phone bill so I can truly compare prices of phone services. I support the petition filed by the National Association of State Utility Consumer Advocates and endorsed by other consumer advocacy organizations, including CU. This petition, CG Docket No. 04-208, Petition for Declaratory Ruling Regarding Truth-In-Billing and Billing Format, is long overdue. It is almost impossible for the average consumer to decipher the numerous charges and fees found on a typical phone bill. The only reason for this deliberate deception is so that phone companies can hide the true cost of the service being provided. Apparently this deception is OK with the FCC. Consumers should be able to accurately compare costs of phone plans so an informed decision can be made. The FCC should immediately grant the NASUCA petition to investigate carrier practices related to line item charges on bills for wireline and wireless phone service; to declare certain practices in violation on the Commission's "Truth in Billing" Order and to prohibit carriers from imposing separate monthly fees, line items or surcharges unless expressly mandated by law or the charge is expressly authorized by a governmental authority.
